

Acrylic Clear Roof Coating

is a one pack, **water based**, durable & UV stable Clear coating for Roofs. It's applied as the final glossy coat over our tinted Waterproofing Paint and Waterproofing Membrane. It both **protects & enhances** the waterproofing paint.

Coverage: depends on substrate texture.

5 – 7m² per Litre on flat surface.

3.5 – 5m² per Litre on textured surfaces.

Number of Coats: one to two coats.

First Clean Roof

Second – Prime Roof

Porous Tiled Roof - use Acrylic Latex Primer

Third – Waterproofing Paint

Fourth – Acrylic Clear Roof Coating

Metal Roof - use WB Epoxy Primer

Concrete - use WB Epoxy Primer
